## ALCOHOL USE DISORDERS

Thursday 7<sup>th</sup> March 2024

13:00-14:00

Chaired by Dr Sarah Tamplin, GP CPD Lead for West Wales

### Overview

As part of our new series in which we look at substance use and other vulnerabilities, we will be focusing in this webinar on Alcohol Use Disorders (AUD).

### Learning outcomes:

We will have the opportunity to look at:

- The range of alcohol-related harms
- How long-term neuroadaptation as a result of chronic alcohol use means that patients aren't just "making unwise decisions"
- How Primary Care clinicians can help their patients with AUD.
- Basic overviews of AUD in older adults and Alcohol Related Brain Damage (ARBD)

Participants will feel increased confidence in dealing with these cases, and time will be allocated to answer any questions that may arise.

**Speaker:** Dr Julia Lewis, Consultant Addiction Psychiatrist, ABUHB.

**Designed for:** GPs. Other allied medical professionals are very welcome to attend.

**Format:** A presentation followed by the opportunity to direct questions to the expert speaker during the webinar.

*This session will be recorded for quality improvement purposes, but you will be able to disable your camera during the session.*
