

RAPID DIAGNOSIS CENTRES

Infectious Diseases

Wednesday 6 July 2022

19.00 - 20.00

Chaired by Dr Nimish Shah, GP CPD Lead for South Wales

Overview

The roll out of Rapid Diagnosis Centres for patients with vague symptoms where the GP has the 'gut feeling' that these patients may have a cancer, is in full force across Wales.

During this webinar, we will explore the following areas:

- Infectious diseases which may present with non-specific signs and be 'cancer mimics'
- HIV
- Pyrexia of unknown origin
- The diagnostic approach to infection
- Q&A

Speaker: Dr Owen Seddon, Consultant in Infectious Diseases and Microbiology, PHW.

Designed for: GPs. Other allied medical professionals are very welcome to attend.

Format: A presentation followed by the opportunity to direct questions to the expert speaker during the webinar.

This session will be recorded for quality improvement purposes and to be available On Demand, but you will be able to disable your camera during the session.
